

# BASE SV SYSTEM

**Modular street poles** – stylish, strong, practical.  
With the smart 1 m module system, you can build the height you need – quickly, easily, with perfect fit.

## BASE SV Pole 3 m Ø60 mm

- three galvanized steel modules (total height 3 m): base (Ø 114 mm) with bottom plate (200 x 200 mm – hole spacing 140 x 140 mm), middle module (Ø 76 mm), threaded top (Ø 60 mm)
- pole available in black or grey, powder-coated for increased durability and corrosion resistance
- set includes: steel anchor bolts, end cap, and a high-voltage warning sticker
- inspection opening – option to install a fuse board inside the pole
- maximum load capacity: 25 kg

**Anchor for  
BASE SV  
200x200 mm**

## BASE SV Extension 1 m Ø76 mm

- middle module for extending the BASE SV pole by 1 m
- available in grey or black
